

BHARATHIAR UNIVERSITY : COIMBATORE 641 046

TENDER NOTICE

Ref.No. BU/RUSA 2.0/R3-R14/2021/BCTRC/939,

Dt.22.09.2021

Sealed Tenders are invited by the Registrar, Bharathiar University, Coimbatore 641 046 up to 03.00 P.M on **12.10.2021** from the reputed firms for the supply of **1No. of Ultra –Water Purification System (Smart)** to the **Dept . of Zoology, RUSA 2.0 BCTRC Project.**

Tender Documents can be downloaded from our website: www.b-u.ac.in. from **24.09.2021 to 12.10.2021.** The **tender cost of Rs.788/- and EMD Rs.7,500/-** in the form of DD drawn in favour of The Registrar, Bharathiar University, Coimbatore has to be enclosed while submission of tender .

**REGISTRAR i/c
BHARATHIAR UNIVERSITY**

BHARATHIAR UNIVERSITY –COIMBATORE 641 046

TENDER TERMS AND CONDITIONS

1. Sealed Tenders will be received by the **Registrar, Bharathiar University from the reputed firms up to 3.00 P.M. on 12.10.2021 for the supply and installation of 1No. of Ultra –Water Purification System (Smart) to the Dept. of Zoology, RUSA 2.0 BCTRC Project** specified in the schedule.
2. Tender should be addressed to the Registrar, Bharathiar University and should be only in sealed covers by Registered post/ or in person. Tenders received in ordinary covers without seal will not be considered.
3. The tender shall be submitted in a sealed cover with **Ref. No. and superscribed as “Tender for the supply of 1No. of Ultra –Water Purification System (Smart) to the Dept. of Zoology, RUSA 2.0 BCTRC Project. Due on 12.10.2021” with the tenderers Full Address and contact number (Mobile number).** The covers received without such superscription will be rejected summarily.
4. a) Tender shall be accompanied with the **requisite following tender cost of Rs.788/- and EMD Rs.7,500/- in the form of DD drawn in one of the Nationalised Banks in the name of “The Registrar, Bharathiar University” payable at Coimbatore. Bank Guarantees will not be accepted.**
b).Tenders without EMD shall be summarily rejected. EMD will not carry any interest. of tenderers specifically exempted by the Government from the payment of earnest money deposit /tender cost necessary certificate should be enclosed for exemption otherwise it will be liable for rejection.
5. **The tenders will be opened on 12.10.2021 at 4.00 P.M. by the Registrar or his/her nominee in the presence of the tenderers** or their representatives who may be present at the time of opening. The representatives of the tendering firms who are attending during opening of the tenders should bring a **letter of authorization** from the tendering firms, which they represent to identify their bonafied. **If the tenderers couldn't attend the tender opening they may intimate their absence through mail (rusa2.0bctrc@buc.edu.in) before the tender opening.**
6. Tenders received late i.e. after 3.00 P.M. on due date will be returned to the tenderer unopened.
7. The tender shall be valid for a maximum period of 180 days from the date of opening of the tender in acceptance.
8. If the tender validity is less than **180 days** the tender will be rejected as non-responsive tender. Tenderer should not withdraw his tender after the tenders are opened. In case the tender is withdrawn after it opened, the EMD will be forfeited and black listed.
9. The rate should be quoted for item with specification and model if applicable and should be indicated clearly both in words and figures. Any scoring of overwriting should be attested by the tenderers with full signature. The rate quoted should be firm and should not subject to any variation clauses.
10. The EMD of the unsuccessful tenders will be refunded immediately after the tenders are disposed of by the competent authority.
11. Successful tenderer shall execute an agreement for the fulfillment of contract in the Rs.100/- stamp paper of TamilNadu as per the model format. The conditions stipulated in the form should be strictly adhered to and violation of any of the conditions will entail termination of the contract without prejudice to be right of the University and to recover any consequential loss from the successful tenderer.
12. **Successful tenderer shall remit a Security deposit 5% to the order value.** The EMD will be refunded to the successful firm after remittance of security deposit or it may be adjusted towards Security deposit. Security Deposit will be refunded at the end of warranty period as per the purchase order subject to the satisfaction of the University.

13. If the Successful tenderer failed to act up to the tender or backs out when his tender accepted the EMD will be forfeited.
14. a)Manufacturer / Authorized Dealer / Distributor/ Supplier can also bid with authorization letter from the manufacturer.
b) Manufacturer should not authorize more than one dealer / distributor for participating in the tender.
15. The material should be supplied strictly in accordance with the specifications given in the Appendix and should fulfill the successful tests carried out by the Competent Authority of the University.
16. The supply and installation should be made as per the delivery schedule to be sent by the Registrar along with the exact location of the work. The guarantee period shall take effect from the date of installation . Successful tenderer shall be liable to change any defective part during the warranty period. In either case the damaged or defective items will have to be taken back at supplier's cost and risk.
17. The installation should be completed within the stipulated period mentioned in the supply order. If the supply is not made within the period, the supply order will be cancelled and the EMD & Security deposit will be forfeited.
18. The materials are to be guaranteed as per the required warranty period . The warranty period specified will commence from the date of installation .
19. The materials quoted shall confirm to ISI standard. The make of the materials shall be mentioned in the tender.
20. Any dispute arising out of this contract shall be settled only at the court having jurisdiction of Coimbatore.
21. The authority competent to accept or reject any tender without assigning any reasons thereof.
22. Regarding the acceptance of supply with reference to the specification and quality of materials supplied, the decision of Registrar shall be final.
23. Price:
a)For Imported: The Price shall be quoted in Currency for CIP Chennai / FOR Coimbatore.
b)For Indigenous : Quote the price in INR inclusive of GST, packing , transportation and warranty.
Separate charges for warranty will not be considered at any cost ,
24. The University is registered with DSIR and eligible for exemption towards customs duty as per the Government Notification No: 51/ 96 Customs Dt.23.7.1996.and Central excise duty as per Government Notification No.10/97 Central Excise Dt: 1.3.1997.

Tender Specifications for Ultra- water purification System (smart):

S. No	Specification	QTY	Amount
	<ul style="list-style-type: none">• Type 1 water purification system capable of delivering up to 100L per day of Type 1 water on demand using pretreated water as a feed source.• Product water must have a resistivity of up to 18.2 megohms-cm, <5 ppb TOC (Total Organic Carbon), and bacterial counts less than 1 CFU/ml.• Permeate flow rate should be up to 3 liters per hour with a pressurized feed of <90 psi.• Unit requires 90-240V, 50/60Hz power source. Unit comes standard with universal power supply.• The system will be bench mounted or wall mounted with the two screws included with the system.• The water purification system will be sold with one part number which will include all consumables needed for immediate start-up. Installation and maintenance of the system should be simple and user-friendly.• Cartridges will have quick-connections to remove the need for depressurizing the system for cartridge changes.• Display must be able to be angled for easy reading with illuminated display to show dispensing mode, conductivity/resistivity, and the temperature measured for conductivity compensation.• The System should convert tap water into both ASTM Type I and Type II water• The RO membrane with pretreatment cartridge is separate from the DI cartridge, allowing you to replace each cartridge only as needed• The System should have an internal 6L tank with vent filter.• It should have a Validated 0.2 µM final filter can be autoclaved up to 5 times.• The System should have a UV-Oxidation 185/254 nm UV Lamp that reduces organic compounds in the water to ultra-low levels as well as microorganisms and their metabolites with up to a 2-year lifetime• The cartridge pack will be constructed utilizing non-pigmented polypropylene and semiconductor grade mixed bed ion exchange resins.	1no	

	<ul style="list-style-type: none"> • The unit will include a UV lamp that will emit both 185 nm and 254 nm wavelengths ensuring organic removal as well as maintaining a bacteria-free environment. The UV lamp is to be followed by an organic-free component of the pack ensuring that resistivity is increased and ultra-low organic levels are maintained. • The conductivity measurement is performed with two high precision measuring cells. A fully automatic check and calibration will occur prior to each measurement via a built-in reference resistance. The cell constants are 0.01 cm-1. • Temperature measurements are made by a platinum chip sensor with $\pm 0.1^{\circ}$ C accuracy. • Continuous feed water monitoring alarms the user when feed water quality falls below the set point to prevent premature expiration of consumables. <p>It should be both CE and CSA Certified.</p>
